Discover your outdoor and indoor climate

WEATHER DATA

Measure your own outdoor and indoor ultra-local climate data: temperature, humidity, air quality, barometric pressure, sound and CO2 levels.

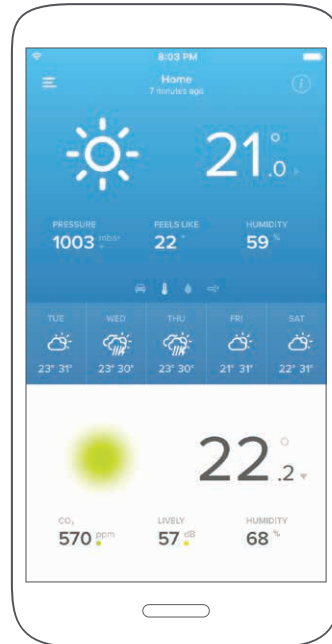

WEATHER RECORDS

Check in the App your real-time data and historical graphs to understand weather trends.

HOME AUTOMATION

Create scenarios with your favorite Smart Home Platform.

Complete your Personal Weather Station

RAIN GAUGE

Measure and record real-time and accumulative precipitation data. Know when you need to water your plants.

WIND GAUGE

Measure wind speed and direction. Know when your plants need to be protected from the adverse effects of high winds. Choose the best time for outdoor sports activities.

ADDITIONAL INDOOR MODULE

Place the Additional Module in the room of your choice to monitor the temperature, humidity and CO2 level. Add up to 3 Additional Indoor Modules to your Personal Weather Station for more complete coverage of your home.
